MEDIA RELEASE

For Immediate Release

Puri Denpasar Hotel – E-Hors First Step into Indonesia

Puri Denpasar Hotel, the first property that marked E-Hors first step into Indonesia, was opened on the 25th of March 2009. A simple ceremony was done to mark its soft opening.

“I would like to congratulate Puri Denpasar Hotel on behalf of the E-Hors team on its soft opening. We believe that our partnership with Puri Denpasar will continue to be strong for years to come,” said Mr Wouter Piët, CEO of E-Hors.

“The management of Puri Denpasar chose E-HORS as our hospitality system of choice because it is fully web based. E-HORS customized reports can reduce human resources needed and provide the hotel management with transparent access to the performance of the hotel,” said Dicky Johan, director of Puri Denpasar Hotel.

As E-HORS is 100% web based, the management of a hotel is able to view real time reports and monitor the operations of the hotel from anywhere in the world as long as Internet access is available.

Traditionally, hotel staffs create their management reports using spread sheets. This requires a lot of time and effort. Human resources can be better utilized to manage the operations of the hotel.

E-HORS provide customized reports tailored to the needs of the customers as long as the annual support and maintenance fee is paid. With this added advantage, there is no room for human error or even fraud when hotel employees can’t manipulate the data in the reports.

Puri Denpasar Hotel is a boutique suite hotel located at the center of Jakarta, Indonesia. Its strategic location makes it a great choice for business and leisure travelers.
