MEDIA RELEASE

For Immediate Release

Internship with E-Hors Proves Beneficial for Students

Students from Hotel School The Hague, International University of Hospitality Management in The Netherlands have completed their internship with E-Hors in July. Their internship consisted of 19 weeks of intensive training in E-HORS (Electronic Hotel Operations and Reservation System) and also opportunities to experience hotel operations.

“E-Hors is passionate about educating hospitality students regarding operations in the industry and will be offering outstanding students a job opportunity in E-Hors to help expand the organization,” said Wouter Piët, CEO of E-Hors.

The students selected for this internship are Dinja Verstoep, Kenneth Schaap and Taras Kaduk. They are selected mainly because of their ambitions and their understanding in adding the value of E-Hors in the hospitality industry. They also have a clear comprehension of Information Communications Technology within hotels and have some experience in hotels.

E-Hors plans to make this a long term affair to facilitate potential individuals to gain maximum exposure in the hospitality industry as well as hands on experience.

Testimonials from students who completed the internship:

My internship at E-Hors contributed to my knowledge of the hospitality industry tremendously. Learning and working with a hospitality software such as E-HORS gives one a very good level of knowledge about the daily operations in the hotel and communication links within and across the departments in a hotel.

- *Taras Kaduk*

What started as an internship for me turned out to be one of the most rewarding experiences in my life. E-Hors is more than a company, it's a family of friends and colleagues I've grown to admire and like. Working with E-Hors has opened my eyes to limitless possibilities that technology can bring to the industry today.

- *Kenneth Schaap*

E-Hors (M) Sdn. Bhd.
